News from the Students' Representation

December, 2021

What we did

University Merchandising

It was long awaited, and after years of work UniTrento finally has its merch! You can find it on the UniTrento Shop website.
We have reported the complaints about the price, justified by the high quality of the products and the green certification, but not affordable for all students; that's why for the black Friday there was a 15% discount. We then suggested creating permanent discounted packages (e.g. t-shirt + sweatshirt).

Group study rooms

Group study rooms have reopened: 2 in CIAL for those studying in the city, 1 in BUP and 1 in BUM dedicated instead to those of the scientific area. You can book them here: Reserve the group study room.

"Movida"

On November 26, the first university aperitif was organized at the Liber Café in Piazza Dante. The next events will be on the Thursdays of December and will start again in the spring.
The objective in the medium term is to collect events, music and aperitifs in Piazza Dante, all dedicated to students, in order to decongest the "movida" in the city center improving the relationship with residents.

Povo 0 canteen

Thanks to the work of the Opera representatives, the Povo 0 canteen reopened: we'll have a hundred more seats, both for the pizza menu and for the normal menu.
We continue to work to extend the opening hours of the Povo bar.

Inauguration of the Academic Year

On November 26, we had again the inauguration of the Academic Year after a two-year suspension due to the pandemic. In his speech, our CdS President discussed the need to maintain distance learning and emphasized the consequences, also psychological, that the pandemic had on young people.
You can find it at the minute 28: Inauguration of the Academic Year.

National Day of the University Students

On November 17, the first National Day of the University Students was held in Rome, to present to the Minister of the University and to the parliamentarians the needs of the university community, such as the possibility to vote for non-resident students, teaching innovations, and the increase in economic support for the right to study.

What we are working on

Distance learning

We continue to ask to increase the use of streaming and recorded lectures, especially given the many quarantines happening now, since in many cases the online substitutive materials are not sufficient.
We also work to ensure that those in quarantine and fragile people will be able to take their exams online.

Psychological counseling service

We are working to improve the psychological counseling service by increasing the staff, in order to reduce the waiting time and increase the number of sessions available to each student.
In addition, we are proposing to the University to establish an agreement with psychologists and psychotherapists to obtain discounts.

Study rooms

We are trying to institutionalize that all the classrooms in all the departments can be used to study when there are no classes or exams, as it would create thousands of additional study seats.
We continue the dialogue to open an overnight study room during the exams session.

Student residences

Due to some unannounced supervisions in the students' rooms that violated their privacy, the Opera representatives are working on a communication system for these interventions, for example through the Opera4U app.
In December there will be the annual election for representatives of the student residences: if you live at Mayer or SanbàPolis, you can apply by 12/12 to this form: Representatives' nominations.
Work continues to reopen the bar at SanbàPolis.

UniTrento App for Huawei

We reported that the University app stopped working on some Huawei devices.

Alumni mail

The University will discontinue, as of February 1st, the alumni emails, which until now replaced @studenti.unitn.it after graduation. More information here: Discontinuation of alumni email.
However, a new Alumni portal will be created, which will allow to maintain contact between former students and create a network between students and graduates.

University Strategic Plan

We are continuing to cooperate in the definition of the PSdA, a document that sets the vision and objectives that the University wants to achieve in the next 6 years. We are analyzing all the proposals made by the Departments and Directions, and we will participate in the discussions with various stakeholders, to ensure that the students community's needs are put at the center of this planning.

P.S. *As you can see, the representation is active and working for you, so if you have any doubts or problems you can contact your Department's representatives or the Student Council, by email or on social media.*

The President of the Students' Council
Edoardo Giudici

The Students' Council

Who we are and what we do

The Students' Council (CdS) is the upper body that **expresses the opinions** of all the students of the University of Trento.
Here are discussed topics regarding the community of the University of Trento in general: for each one, deputy **delegates** are nominated and they work together with their commissions on that specific topic.
The Students' Council expresses the political will of students by the means of Motions and Opinions.
The CdS elects its **President**, who **represents all the students** inside and outside our University, and is a member of both the University Board of Directors and the Provincial Coordination Committee.
You can find our Statute, various documentation and more details about the CdS on the dedicated section on the UniTrento website.

Current Members of the Council

Federico Amalfa - CdS Vicepresident
Fiorella Bredariol - Associations and University life delegate, member of UniCittà
