

UNIVERSITÀ  
DI TRENTO

# UniTrento ICM Info Days

Erasmus+ KA107 International Credit Mobility

Trento (Italy), 14-15 October 2020

With the support of the  
Erasmus+ Programme  
of the European Union

## ICM mobility impact: on individuals, Institutions and territory

*“Impact is the effect that the activity carried out and its results have on **people, practices, organizations and systems**. Dissemination and exploitation of results plans can help to **maximize** the effect of the activities being developed so that they will impact on the immediate participants and partners for years to come. **Benefits** to other stakeholders should also be considered in order to make a bigger difference and get the most from the project.”*

## ICM mobility impact: on individuals

An  
experience  
that will  
broaden  
their  
cultural  
horizons

In particular, mobility is expected to provide the knowledge required by the country's labor market, in addition to the language and entrepreneurship skills currently lacking in IT industry professionals.

It will allow  
soft skills  
development

They will be exposed to a diversified vision of the cultural and musical heritage of the two countries. This vision is an additional advantage that will enrich their curriculum and make it attractive to both the public and private sectors seeking to fill top positions in the music departments of archives, as well as traditional libraries and audio libraries.

It will also be an opportunity to enhance their capacity as entrepreneurs, spirit of initiative and active participation in global society, which will result in greater employability and career prospects.

## ICM mobility impact: on institutions

To Integrate their skills to the point of being able to establish in the near future a thesis co-tutoring program between the doctoral course in Medical Physics and Cognitive and Brain Sciences.

The overall aim is to further strengthen current cooperation initiatives to ensure long-lasting sustainable development and exchange opportunities that mutually enrich participating institutions.

The project permits the establishment of more fruitful collaborations in the identified areas which fosters the integration of the partner's strengths within your educational programs

Contact among academic staff will enhance integration of knowledge and skills and favor the introduction of new programs and courses taught in English, as well as the increased internationalization of existing courses

Project management also presents an opportunity to achieve the strategic objectives of increased global visibility and credibility. in line with the strategic objectives

The project will lead to the implementation of best practices with a positive impact on the ability to manage the international dimension of the university.

## ICM mobility impact: on territory

To improve technical skills for the management of the country's vital water resources and promote the growth of a new generation of environmental protection specialists.

To develop knowledge that can be transferred to the non-academic sectors present in the two territories for the study of neurodegenerative diseases such as cancer, dementia, autism, among others.

The project permits the establishment of more fruitful collaborations in the identified areas which fosters the integration of the partner's strengths within your educational programs

At the regional level, collaboration on the indicated issues will contribute to the implementation of sustainable development plans proposed by the two countries.

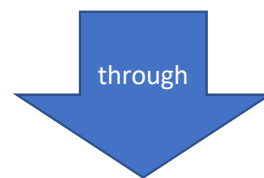

To create profiles suitable for positions requiring high-level qualifications and more inclined to self-employment, which is directly in line with national innovation strategy.

Collaboration initiatives will contribute to the formation of skills necessary to develop effective and innovative technological solutions to meet growing demand from the economic sector of both countries.

## ICM mobility impact: what we measure and how we measure it

- Achievement of the proposed learning / teaching outcomes
  - Post-graduation employment in relevant sectors
- Involvement of faculty in EU projects related to education and in joint academic activities with the host institution
  - Joint scientific publications
- Exchange of knowledges/competences/ good practices with external stakeholders
  - New bilateral agreements
- Academic collaboration among Departments

- ❖ EU survey at the end of the mobility
- ❖ UniTrento surveys after 12 and 24 months
  - ❖ Staff reports
  - ❖ Testimonials

# Thank you!
