For this reason, the increase in scholarships may in parallel change the total number of the positions available. Any extra available positions will be posted solely on the website: http://www.unitn.it/en/ateneo/1956/announcement-of-selection

Art. 2 – ADMISSION REQUIREMENTS

Applications for doctoral positions are accepted from candidates, regardless of gender, age and nationality, who hold an Italian “Laurea Magistrale”, according to the Ministerial Decree no. 270 of the 22nd of October 2004 and subsequent amendments, a university degree of the previous regulations in force, or an equivalent degree obtained abroad (Master’s degree). Any degree in a scientific area will be given preferential status.

Applications are also accepted from students expecting to obtain their degree by October 31, 2014; in such case applicants must attach the following documents:
- a certificate of enrolment with a list of the examinations successfully passed and marks obtained in each examination (if this document is not in English, the candidate must provide, in the same file, a translation of the same duly undersigned);
- a statement by the thesis supervisor declaring that the student will complete his/her degree by October 31, 2014.

For EU citizens the two above-mentioned documents may be substituted by a self-declaration, as required by art. 46 of Presidential Decree no. 445 of 28.12.2000 and subsequent amendments, with exams taken, the corresponding grade and the expected date for the graduation examination, prepared using the Annex A only for titles that will be achieved at a public institution of the member countries of the European Union.

Admission to the Doctoral Programme for successful candidates who have not graduated yet will be “conditional” and the applicant will have to submit to the “Divisione Supporto Corsi di Dottorato e Alta Formazione – Polo Collina” (via email to: dottorati-collina@unitn.it) by November 7, 2014, on penalty of exclusion, the degree certificate (EU citizens may deliver a self-declaration using Annex A only for qualifications that have been acquired at a public institution of a member country of the European Union according to Presidential Decree no. 445 of 28.12.2000 and subsequent amendments).

Art. 3 – UNIVERSITY QUALIFICATIONS AWARDED ABROAD

Foreign university qualifications (Master’s degree) must be comparable to the “Laurea Magistrale” in terms of duration and level. Based on this principle, the Admissions Committee will decide on their eligibility. Applicants with a foreign qualification that has not been officially recognised as equivalent to an Italian degree (Laurea Magistrale/Specialistica/Vecchio Ordinamento) will be considered as requesting equivalence in their application. In this case, it is necessary to submit the following documents:

2 For further information visit http://www.cimea.it/default.aspx?IDC=113
- the degree certificate with examinations taken and corresponding grades (transcript). EU citizens may deliver a self-declaration according to Article 46 of the Presidential Decree No. 445 of 28.12.2000 and subsequent amendments, by using Annex A only for qualifications that have been acquired at a public institution of a member country of the European Union;
- the translation into English, if in a different language, of the degree certificate with examinations taken and corresponding grades undersigned by the applicant, on his/her own responsibility. The purpose of the English translation is solely that of allowing the Admissions Committee to evaluate the applicant’s eligibility for the selection process;
- any other official document concerning the foreign degree which can be considered useful for its evaluation (Diploma Supplement or Dichiarazione di valore in loco etc.).

Admitted candidates holding an academic degree obtained outside Italy must submit to the Divisione Supporto Corsi di Dottorato e Alta Formazione Polo Collina (email: dottorati-collina@unitn.it) by no later than January 10, 2015:
- the “Dichiarazione di Valore in loco” (DV) along with their degree certificate with its corresponding examinations and grades, all these translated and legally certified by the Italian diplomatic delegations in the country where the degree was issued. The Dichiarazione di Valore should certify that the university degree is valid and enables candidates to enrol on a PhD course in the country where it was obtained (third level of higher education according to the Bologna Process);
- or, alternatively to the Dichiarazione di Valore, the Diploma Supplement in English, according to the model developed by the European Commission, by the European Council and by the UNESCO/CEPES.

Lack of such documents may result in the exclusion from the Doctoral Programme.

**Art. 4 - DOCTORAL PROGRAMME**
The PhD Programme in Mathematics lasts three years and is articulated into three curricula:

**Research field in Pure Mathematics**
The research fields deals with one or more of the following scientific areas:
- Calculus of Variations
- Nonlinear Partial Differential Equations
- Analytic and Algebraic Geometry
- Mathematical Physics and Dynamical Systems
