

Tuition Fees a.y. 2017/2018

Starting from academic year 2017/2018 for all EU citizens there is a **new contribution system** for calculating tuition fees and students benefits. The new system is based on **“ISEE università”**, that is to say the Equivalent Economic Condition Indicator, referred to university. The fee amounts you will have to pay depends on this indicator, which is expressed in **euros on a declaration** (“Dichiarazione Sostitutiva Unica per l’ISEE università”) issued by any Fiscal Assistance Centre (“CAAF”) in Italy.

The new contribution system and ISEE

If you enroll in UniTrento for the first time, or renew your enrollment for a.y. 2017/2018, the fee amount that you will have to pay is subject to “ISEE università”, that is to say the Equivalent Economic Condition Indicator, referred to university.

Fee range

The fee amount changes in relation to the study course and to your ISEE-università value.

The total fee amount include the four following items:

- **16,00 € of revenue stamp:** even if you are fee waiver
- **study local tax (TDS):** whose amount changes in proportion to your ISEE:
 - **130 €** if the **ISEE value is from 0,00 € to 15.748,78 €**
 - **150 €** if the **ISEE value is from 15.748,79 € to 31.497,56 €**
 - **170 €** if the **ISEE value is more than 31.497,56 €** or if you did not have your ISEE calculated.No tax is due for fee waivers.
- **University contribution fixed rate: 200,00 €**
No fixed rate contribution is due for fee waivers.
- **University contribution variable rate:** this amount is calculated in proportion to ISEE value referred to university and to the study course you enroll in:
 - **minimum amount: 0,00 €** if the **ISEE value is less than 26.000,00 €**, or the same
 - **maximum amount: 1.998,00 €** if the **ISEE value is more than 26.000,00 €**, or the same, or if you do not have your ISEE calculated for the following courses: Bachelor’s, 5-year-degree courses, degree courses referring to the set of rules before Bologna-process University reform (“vecchio ordinamento”)
 - **maximum amount: 2.959,00 €** if the **ISEE value is more than 87.000,00 €** or the same, or if you do not have your ISEE calculated for all Master’s degree courses
 - if the ISEE value is **between 26.000,00 € and 87.000,00 €**, the fee amount is **proportionally calculated** and you can get an estimate through [UniTrento fees simulator](#) (“Simulatore tasse UniTrento”).

No University contribution variable rate is due for fee waivers.

Should you decide not to have your ISEE value calculated, beside the revenue stamp and the fixed rate contribution, you will have to pay the maximum amounts both for the study local tax (TDS) and for the University contribution variable rate.

The fee **total amount** is the result of the revenue stamp, the study local tax, the fixed and variable contribution.

Once you have your ISEE value calculated for year 2017, you can get an idea of the final amount you will have to pay by using [UniTrento fee simulator - Simulatore tasse UniTrento](#).

The cases of weighted calculation for enrolment renewal

If the fee amount for a.y. 2017/18 should be over 20% higher than the fee amount paid in 2016/17 on the basis of your ICEF, you will benefit from a “weighted calculation” for a.y. 2017/2018 if:

- you are regularly enrolled in UniTrento during **a.y. 2016-17**
- you have already **your ICEF for a.y. 2016-17 calculated**. You can have it for free until 30th June 2017.
- you first enrolled in UniTrento
 - since **a.y. 2014-15** in a Bachelor’s degree course
 - since **a.y. 2015-16** in a Master’s degree course
 - since **a.y. 2012-13** in a 5-year-degree course

If you fulfill all the above mentioned requirements, your fee amount for a.y. 2017/2018 will be recalculated so that it does not exceed more than 20% the fee amount you paid for a.y. 2016/2017.

ICEF extension for a.y. 2016-17

If you are a UniTrento student, you can calculate **ICEF referring to a.y. 2016/2017** free of charge **until 30th June 2017**.

UniTrento fees simulator

UniTrento fees simulator provides quite an exact estimate on how much you will have to pay for each item (revenue stamp, the study local tax, the fixed and variable contribution) for a.y. 2017/2018, according to your economic condition, study course, and your previous contribution situation in year 2016-17.

When to pay?

Fees time table

Fees are due in three instalments:

- **1st instalment:** the University contribution fixed rate for all students, to be paid within **30th September 2017**
- **2nd instalment:** the 70% of the University contribution variable rate, calculated according to ISEE-Università to be paid within **30th November 2017**
- **3rd instalment:** the remaining 30% of the University contribution variable rate, to be paid within **31st March 2018**

Deadlines and ISEE calculation process for a.y. 2017/2018 on page ISEE a.a. 2017-18.

Changes from the past system based on ICEF

There are no income brackets any more. The final amount takes into consideration different factors (the ISEE value referred to university, the study course, the year of first enrolment). [UniTrento fees simulator](#) provides quite an exact estimate on how much you will have to pay.

The instalments are three, instead of two: the first instalment (the same amount for all students) is to be paid in September, the second one (the most significant one) is to be paid in November, while the third one in March

ISEE validity is **one academic year only** and has to be calculated every time you renew the enrolment

You can get your ISEE-università calculated from any Fiscal Assistance Centre (“CAAF”) in Italy

ISEE-università declaration is valid for all **family members**

ISEE calculation can take up to 15 days

You can have your ISEE calculated **free of charge from 16th January to 30th September every**. If you enrol **after 30th September (last deadline being 15th January of the following year)**, you will have to pay a **penalty**.

ISEE università **can be calculated no later than 15th January of the following year**. For example: ISEE 2017, valid for a.y. 2017/2018 can be calculated up to 15 January 2018)

If you are expecting to graduate within 31st March 2018 (**“attesa di laurea” condition**) you must have your ISEE calculated **no later than 15th January** if you intend to renew your enrolment within 31st March 2018.
