Art. 2 – PHD PROGRAMME AND THEMES

The PhD programme in International Studies focuses on studying complex international phenomena, which often prove comprehensible only when analysed with the support of various interconnected disciplines.

The doctoral programme will focus on the following themes:

- International Security;
- European Studies and Integration;
- Global Environmental Problems;
- Human Rights and International Relations.

For this reason, the course takes a multidisciplinary approach that combines solid foundations in one or more reference disciplines with the discovery of methodologies, concepts and keys to interpretation that derive from the other core sectors in international studies.

The doctoral programme includes:

- two methodological courses;
- a multidisciplinary (economics, law, political science, sociology, history) seminar-type course on the topics of the research clusters that characterise the School of International Studies;
- a rich programme in Academic Writing is designed to strengthen scientific writing skills in English in preparation for the final thesis and other written work (articles, reviews, etc.) necessary for research work.

Students wishing to undertake a thesis in economics will be able to acquire further tools for economic and quantitative analysis through a series of advanced courses (international economics, econometrics).

A series of Guest Lectures presented by professors invited by the School of International Studies, meetings with practitioners working in international organisations, and short intensive courses to strengthen *soft skills* (covering areas such as *project management*, *drafting of policy briefs*, or *research project proposal writing* for competitive tender, for example) complete the programme offered.

Starting with the 39th cycle, SIS has signed a scientific collaboration agreement with the doctoral school DESPEG (Université Côte D'Azur) in order to enhance the multidisciplinary teaching and research activities useful for completing the thesis (<https://ed-despeg-unice.fr/>)

A detailed description of the PhD programme is available at <http://www.unitn.it/drsis/node/128>

EDUCATIONAL OBJECTIVES

At the end of the doctoral course, students must be able to:

- understand the fundamental theoretical approaches on which the disciplines underlying International Studies are based (political science, law, economics);
- use analytical and empirical research tools appropriate to International Studies and their reference discipline in response to innovative research questions;
- demonstrate familiarity with the tools required for sending articles and reviews to national and international scientific journals; submit research projects to academic and non-academic scientific commissions; present research results in public.

Art. 3 – ADMISSION REQUIREMENTS

1. Applications for admission to the PhD programme described above are accepted from candidates (regardless of gender, age or nationality) who hold the following:
 - a) an Italian “Laurea Specialistica” or “Laurea Magistrale” (*Master's Degree*) or degree issued in accordance with the regulations in force prior to Ministerial Decree no. 509 of 3 November 1999, amended by Ministerial Decree no. 270 of 22 October 2004;
 - b) or a second-level university degree awarded by an Italian “AFAM” Institute (Artistic and Musical Higher Education)
 - c) or an equivalent degree qualification (*Master's degree*) obtained abroad at an officially recognised academic institution which gives access to an academic course equivalent to the PhD in the country/higher education system where the degree was issued (unless there are substantial differences). Foreign qualifications must be equivalent to the Italian ‘*Laurea Magistrale*’ (*Master's degree*) in duration, level and subject area¹. They must be evaluated as suitable² by the

The candidate is responsible for providing all documents useful to their evaluation, especially if the higher education system of the country where the title was obtained is not comparable with the Italian one. The Admissions Committee may request further documentation via the administrative offices if necessary to establish the suitability of the qualification before the start of the selection process.
4. Applications are also accepted from candidates who have already obtained a PhD degree if the main research topics and scientific-disciplinary fields of the Doctorate programme for which the title was obtained are different from those described in Art.2.  - a **letter signed** by the thesis supervisor or other academic/administrative supervisor/staff stating that the candidate will obtain the academic title **by August 31, 2024**.

If the language of the documents mentioned above is different from Italian or English, the applicant will have to submit a translation in Italian or English, which can be done by the candidate under her/his responsibility, to allow the Admission Committee to evaluate the certificate's eligibility for the sole purpose of participating in this admissions process.

C. **Curriculum vitae (in English)** in which are specified:

The proposal will be used for admission purposes to assess the candidate's analytical and methodological abilities and can provide a basis for the doctoral thesis. The precise thesis topic will be defined during the first year, together with the supervisor.

The success of a thesis project depends on a close match between PhD students and faculty research interests. For this reason, interested applicants are recommended to consult the **research profiles** of the faculty and present a proposal in line with the research activities of the School of International Studies or on the specific topic carrying a scholarship.

Research activities at SIS revolve around the following main topics:

- International Security;
- European Studies and Integration;

Candidates are advised to indicate a potential thesis supervisor in their proposal after consulting the list of teaching staff and respective research topics at <https://www.sis.unitn.it/39/faculty>; <https://www.unitn.it/drsis/139/phd-program-committee>.

N.B. An agreement with the faculty member is NOT required nor necessary; it is a matter of individuation based on subject and research interests.

⁷ The Diploma Supplement is a document attached to the final qualification, intended to improve international “transparency” and to facilitate academic and professional qualification recognition (diplomas, degrees, certificates etc.). The Diploma Supplement must be issued by the same institution which has given the diploma. <http://www.cimea.it/en/servizi/il-sistema-italiano-di-istruzione-superiore/diploma-supplement.aspx>

⁸ See: <http://www.cimea.it/en/servizi/procedure-di-riconoscimento-dei-titoli/glossario.aspx>; <http://www.studiare-in-italia.it/studying/info-07.html>

Candidates may nominate two people as referees. Within 24 hours of the candidate completing and saving the relevant section, the system will automatically email each referee instructions on completing and returning the form.
Candidates are advised to check with their referees to ensure their references are uploaded onto the website by **15 May 2024**.
- b) any other documents which help demonstrate the candidate's research skills (awards, scholarships, postgraduate study and research, etc.);
10. If the candidate needs to upload further documents after completing their online application and closing the procedure, they are required to deliver these **by the application deadline** to the following email address: ateneo@unitn.it (stating in the email's subject field: "Application ID-Surname and Name-PhD Programme in International Studies-40th cycle-supplement to application"). Additional material will only be accepted if sent by the method specified.

Art. 5 – ASSESSMENT OF APPLICATIONS

1. The evaluation of the applications is carried out by an Admissions Committee appointed by the Rector. It is composed of a minimum of three members chosen from among the university's permanent professors and researchers, including non-Italians, qualified in the academic fields related to the PhD Programme. The Committee may also include a maximum of two other experts, of any nationality, selected from either public or private research institutes.
2. The selection is based on:
 - an **assessment of qualifications** (see Art. 3 of this announcement) in accordance with the criteria established by the Admissions Committee;
 - an **interview** (for candidates whose academic qualifications have been assessed at least 30/40) to evaluate:
 - the extent of the candidate's knowledge in the area of their proposed research;
 - their language skills in English.
3. Candidates who intend to compete also for potential topic-specific grants, **made available after this call's publication, must express their intention to the Admissions Committee before the qualifications are assessed**.
Those candidates will be evaluated on their knowledge of the specific subject matter(s) of that grant.
A candidate's request to allocate an eventual topic-specific grant implies that candidate's preference for the specific scholarship above all other grants.
4. The Admissions Committee awards a maximum of **100** points:
 - **40** points for qualifications;
 - **60** points for the interview.
5. Candidates require a **score of at least 30/40** points for their qualifications **to be offered an interview**.
6. Candidates who obtain a **minimum** score of **45/60** points are considered to have **passed** the interview.
7. Results following the qualifications assessment stage will be published on the [announcement webpage](#).

¹⁰These certificates and tests are acceptable proof if they have been issued within the last five years: IELTS Academic Test overall band score of 7 or above; Cambridge C1 Advanced (formerly CAE) minimum grade B or Cambridge C2 Proficiency (formerly CPE); TOEFL IBT minimum score of 95; Pearson Test of English (PTE) Academic minimum score 75; Centro Linguistico Ateneo, CLA - CAE (C1).

¹¹ EU citizens may use a self-declaration as per Law no. 445, 28/12/2000, and subsequent amendments.

8. The interview may take place in one of two modalities (at the candidate's choice):
 - a) at the University of Trento. Applicants are requested to show a valid ID document before the interview begins. Should the candidate fail to attend the interview for whatever reason, this will be considered a renunciation of participation in the selection procedure;
 - b) by videoconference using audio-video connection devices that allow the correct identification of the participants (by webcam) and the carrying out of the interview in public. The interview will start at the time scheduled by the Commission. Candidates must provide the same identification document attached to the application form. Failure to participate on the day or at the appointed time or not providing ID documents will result in exclusion from the competition. The University accepts no responsibility in the case of technical problems that do not guarantee the proper conduct of the interview.Information regarding the date, time and place (University of Trento, if in presence) at which the interview will be held will be provided at least 20 days prior to the date of the interview on the competition website.
Any changes to the date of the interviews will be published on the same website.

Art. 6 – RANKINGS

1. Once the interview process has been completed, the Admissions Committee will finalise their candidate ranking by combining the points assigned for qualifications with those for interview.
2. Scholarships are awarded to candidates based on:
 - a) their position in the final ranking;
 - b) their position in the ranking and the number of scholarships available for topic-specific PhD places. The Admissions Committee's evaluation of a candidate's suitability based on his/her educational profile is a decisive factor in allocating these topic-specific scholarships.
3. The successful applicant awarded the topic-specific scholarship must accept it since the choice for a topic-specific grant he/she expressed implies the candidate's preference for awarding that specific scholarship with respect to others. Renouncing the topic-specific grant results in the candidate losing his/her right to enrol in the PhD Programme.
4. Unassigned topic-specific grants will result in the reduction of positions offered in the Call reducing the number of places available.
5. The **ranked list** (again using candidates' application IDs) will be published on the [announcement web page](#).

Publication of this ranked list means that notification has been carried out officially. Successful candidates will **not** receive any personal notification since the ranked list of candidates will be posted on the website.

Art. 7 – ADMISSION TO THE PHD PROGRAMME AND ACCEPTANCE OF OFFER

1. Candidates will be admitted to the PhD Programme according to their ranking position until all available places are filled.
2. Should two candidates obtain the same score, the candidates' economic situations shall be the deciding factor for funded places, in accordance with the criteria established by current legislation on the right to education and the relevant ministerial decrees governing it.
3. Should a successful candidate withdraw before the beginning of the course (1 November 2024), the next candidate in the ranking will be admitted. The candidate will be expected to accept the offer **within 8 days** of receipt of communication from the relevant University Office ('PhD Office—Cognitive, Social Sciences and Humanities').

If a successful candidate withdraws or is excluded within the first three months of the first year, the PhD Programme Committee may decide to offer their place to the next candidate on the shortlist.

Successful candidates must confirm that they accept the PhD place offered **within 8 days** of publication of the shortlist. Offers are accepted online, and instructions can be found at: <http://www.unitn.it/en/node/1928>. Successful candidates who fail to submit their acceptance according to the terms and procedures set out in this paragraph lose their right to enrol. Their places will be made available to other eligible candidates, in order of their position on the shortlist.

4. Admitted applicants with a qualification that has not been awarded in Italy must deliver to the PhD Office - Cognitive, Social Sciences and Humanities, in advance by email (phd.office-cssh@unitn.it) if they had not already done so during the application phase – "Application procedure", the following documents **by 8 November 2024**:
 - original or certified copy of the **academic diploma of the Master's degree** (Master of Science/Arts or equivalent) **together**

with the **academic transcript of records**, possible official translations¹², legalised¹³ or with an apostille affixed (*verify the fulfilment of the requirements set by the issuing country of the title*);

- **Diploma Supplement** (if provided for by the university where the title was issued, it is commonly used within the member countries of the European Higher Education Area (EHEA));
alternatively
- **Declaration of Value** issued by the Italian diplomatic or consular representations country of origin of the institution that issued the title;
alternatively
- **Statement of comparability of foreign university qualifications** issued by the ENIC-NARIC Center in Italy (CIMEA¹⁴) that contains all the information necessary to assess the qualification.

If the Diploma Supplement, the Declaration of Value, or the Statement of Comparability are not available by 8 November 2024, admitted applicants must deliver a document showing that they asked the University, the Italian diplomatic or consular representations, or the ENIC-NARIC centre for the documents to be issued.

Admission to the Doctoral Programme for successful candidates who do not provide the required documents mentioned above by **8 November 2024** will be “conditional”, and the applicants will be excluded from the Doctoral Programme if:

- they do not deliver the documents within 6 months from the starting date of the Programme;
- upon verification, their title does not comply with this call for selection requirements.

Forfeiture from the course will result in the obligation to return any monthly scholarship money received.

Art. 8 – ENROLMENT

1. Registration on the doctorate course for the successful candidates, who have accepted their places according to the procedures in the previous article, will automatically be formalised as soon as the Ministry of Education, University and Research sets out the requirements for PhD Programmes for the 2024-2025 academic year.

Should accreditation not be given, candidates who have accepted places will be notified immediately via email, and the local education tax (TDS) will be refunded.

2. To complete the enrolment, the candidate who has obtained the qualification abroad, upon arrival in Italy, will have to show the official documents (in original or copy conforming to the original), relating to the academic path, already anticipated in a scanned form in phase of admission to the competition or during the acceptance of the position, to allow the appropriate verification of the validity of the qualifications, also through the national information centres on the recognition of foreign securities belonging to the ENIC-NARIC network. Until such time candidates are admitted to the course with reserve and may be excluded if they do not meet the requirements.

Art. 9 – INTELLECTUAL PROPERTY RIGHTS TO RESEARCH RESULTS AND PUBLICATIONS

1. Without prejudice to the Italian law on copyright (legislative decree 633/1941 and subsequent amendments), intellectual and industrial property rights on the results eventually achieved by the PhD student, including (but not limited to) software, industrial inventions patentable or not, know-how, models, data and data collection, are regulated in accordance with applicable laws and University regulations and, if necessary, according to the provisions in the individual agreements with universities, companies or entities involved¹⁵.

Before the start of the research activity, the PhD student is required to sign a specific declaration of commitment to confidentiality in relation to the information, data and documents of a confidential nature that he/she may become aware of in carrying out his / her activity at and/or on behalf of the University.

At the same time, each doctoral student is required to sign a declaration of assignment of intellectual property rights to the University so that he/she is aware of the application of the reference legislation and the rules of the University Regulations on intellectual property and, if required, a Confidentiality Agreement with the funding body, if an entity outside the University funds the position.
