**What students say about us**  
from the final satisfaction surveys and our  
Ambassadors...

## NETWORKING

Met some amazing people that I know I will have in my life forever

It was a great opportunity to meet new international students, learn and change the perspective of so many things :)

Great opportunity to learn new things, experience Italy and make new friends from all over the world. Would recommend this programme to everyone!

It was an Unforgettable experience. I appreciate everything I learned and will forever treasure the friendships I made

## INCLUSIVE

I was a little bit anxious about acceptance and support in terms of social interaction and being understood but it was amazing to see that the program turned out interesting and inclusive. In my opinion, everyone got the attention needed to get settled and thrive. The program is full of great content for academic and career development and the lecturers are so insightful and speak good English.

"I'm a "hardcore" introvert and I thought I challenge myself. In the end I don't regret anything, since everyone (!), including students and staff, were so kind. Whenever I "retreated" to fill up my social battery everyone accepted it and I felt very welcomed every time.

## INNOVATIVE

I learnt the basics of a discipline that I had never heard of before, a discipline that can have a true impact in the way we understand health and medicine.

An excellent course with a humanitarian and literacy based approach to cognitive science which will allow you to meet new amazing people from all over the world whilst expanding your knowledge on numerous areas.

## WE CARE

I believe that all the love that we felt coming from the department was essential for our welcoming and for us to feel at home (even if just for a short period).

Chiara and Jonathan were sweethearts and gave us a great warm welcome.

I surprised myself how much I loved it. I learned so much about narrative medicine and myself.

Italian tend to feed you toooooo much food, you'll never be hungry and the food is to die for).

Michele would get a 10 if possible. He was always up to help out, in close proximity and would hang out in the evenings as well. Such a great guy.

# BROAD

International, interdisciplinary, integrated experience! Meet interesting people and expand your horizons with such a multifaceted program

It was an Unforgettable experience. I appreciate everything I learned and will forever treasure the friendships I made

An excellent course with a humanitarian and literacy based approach to cognitive science which will allow you to meet new amazing people from all over the world whilst expanding your knowledge on numerous areas.

## INTERACTIVE

The summer school was a fantastic opportunity to share ideas with people from all over the world, and to make some friends for life along the way!

I was scared to study in a new country and meet new people. But I surprised myself how much I loved it. I learned so much about narrative medicine and myself.

## BEAUTY

Rovereto is a tiny beautiful village from where you can visit a lot of places. In the heart of the city is the University located. A beautiful old building. The PsyHuman Summer School opens your mind to new people, cultures and lectures.

Worth putting yourself out there for the knowledge, people, experiences and gorgeous location!
