Come si trova il codice SCOPUS - 2

Una volta individuato il documento, guardare nell'URL dopo il punto di domanda:

The screenshot shows a web browser window with the URL: `www.scopus.com.ezp.biblio.unitn.it/record/display.url?eid=2-s2.0-84868298104&origin=resultslist&sort=plf-f&src=s&st1=giunchiglia&`. The page header includes the SciVerse and Scopus logos, navigation links (Hub, ScienceDirect, Scopus, Applications), and user options (Register, Login, Go to SciVal Suite). A search bar is visible with the text "Quick Search" and a "Search" button. Below the search bar, there are navigation options: "Back to results | 1 of 17 Next >". A row of icons for document actions is shown: "View at publisher", "Download", "Export", "Print", "E-mail", "Create bibliography", and "Add to My List". The main content area displays the title "Lecture Notes in Computer Science (including subseries Lecture Notes in Artificial Intelligence and Lecture Notes in Bioinformatics)", volume information "Volume 7514 LNCS, 2012, Pages 647-663", and the conference details "18th International Conference on Principles and Practice of Constraint Programming, CP 2012;Quebec City, QC;8 October 2012through12 October 2012;Code93516". A section titled "Contributions to the theory of practical quantified boolean formula solving (Conference Paper)" is partially visible. On the right side, there are two summary boxes: "Cited by since 1996" which states "This article has been cited 0 times in Scopus." and "Related documents" which states "Showing the 2 most relevant related documents".

Ad un certo punto si trova `eid=...&..` . Tutto quello tra `eid=` e la `&` e' il codice richiesto.

Si ricorda che, importando in U-GOV bibliografie estratte da Scopus, il codice Scopus NON viene importato automaticamente insieme agli altri dati. Viene importato, invece, l'URL da cui è possibile copiare il codice.
