April 2023

What we did

"Well-being of LGBTQIA+ people and endorsement of Dolomiti Pride" - Motion approved by the Academic Senate

On April 14, the Student Council approved a motion, asking the University to sponsor the scientific activities of the "Dolomiti Pride", create an awareness message for the day of May 17 (IDAHOBIT) and monitor the measures for well-being and inclusion of the LGBTQIA+ community, such as alias careers and gender neutral toilets. The motion was approved by the Academic Senate in its session on 26 April.

Extension of the Academic Year - Extra exam sessions

In the last Academic Senate, the extension of the academic year was also discussed again. Finally, the issue has found a solution and in all Departments (except for the department of Economics and Management) extra exam sessions will be included for graduating students who intend to take advantage of the extraordinary graduation session.

The Opera Universitaria scholarships have finally been awarded

The student representatives in Opera followed the question of the granting of scholarships on a daily basis and, after a long bureaucratic process, which had lasted since February, we finally had confirmation that in May the second tranche of scholarships should be paid to all students entitled.

TRent and University student rentals

The President of the Student Council took part in the meeting organized by Opera Universitaria to relaunch TRent, the portal for searching for university accommodation in Trentino. On that occasion we reiterated how the platform is useful for making the search for a bed easier, underlining, however, the scarcity of supply on the private market and the consequent increase in prices.

SuperTrento

We are bringing our ideas for the city to [SuperTrento](#), a participatory process to design the space that will be recovered from the underground railway in the section between the MUSE and Cristo Re. We have suggested, in particular, to obtain co-managed spaces for student associations, as well as new cycle-pedestrian connections that will more easily connect the departments of the city center with the CTE, the Albere park and the new train and bus stations.

Work in progress

Urban transport services

We are working on the problem of reduced urban bus service on pre- and post-holiday days, during which lessons are still active (as happened, for example, at Easter), in order to prevent this inconvenience from happening again in the future.

New bike racks

To encourage the use and parking of bicycles, we have taken steps to obtain new racks and shelters. We are discussing with the various Directors and with the Real Estate Management with the aim of verifying the feasibility of our requests, so as to start the related tenders.

Mobility questionnaires

To improve traffic in the Polo Collina-Povo-Mesiano area and towards the C3A (San Michele All'Adige), we are preparing two questionnaires in order to develop new solutions.

Maintenance of the university buildings

Also with regard to the recent events in the T. Gar canteen, our work continues to keep attention on the need for continuous maintenance of the buildings in use by the student community. This is why your comments are very important, which we invite you to send to presidenteconsigliostudenti@unitn.it

New benches in Povo

In dialogue with the various Departments present in Povo, we were able to start the process of purchasing new benches through the Real Estate Assets: this would be very useful for making up for the lack of space for lunch.
