The Doctoral Programme:

The duration of the Programme is **4 years** for a total amount of 180 credits.

The Doctoral Programme in Sociology aims at forming highly qualified researchers able to do both applied and fundamental research in Universities and scientific research centres or market research institutes.

In particular, the Programme aims to educate professionals that will be able to apply their knowledge in an interdisciplinary fashion, based on the education they acquire during this post-graduate Programme in the various areas covered by the Department of Sociology and Social Research.

To this aim, the training programme aims to enhance the study of the sociological theory.

Students are encouraged to confront themselves with theories, approaches and methodologies of all social sciences.

The main qualitative and quantitative research techniques as well as data analyses are explored.

The training programme is structured in two levels:

1° year: activities will be mainly dedicated to the coursework, to the preparation of papers and assignments as well of the research project.

2° and 3° year : seminars and research work.

Doctoral students are admitted to the 2nd year when they have completed the 1st year coursework and have accomplished the requirements fixed in the Regulations of the Doctoral programme in Sociology and Social Research here available <http://web.unitn.it/en/drss/16268/rules-and-regulations>.

In the Manifesto Studiorum a list of the courses and their content is described. Attendance is mandatory for all doctoral students.

The Doctoral Programme may offer some preparatory courses and 'crash courses' of specialization from October 2017. The attendance of the above mentioned courses will be checked up on case by case through individual talks.

During their 2nd and 3rd year doctoral students are requested to spend a period of research abroad.

Further information on the structure of the Programme and research abroad is available on the webpage:

<http://web.unitn.it/en/drss>

Selection process:

A shortlist will be compiled according to the outputs of two assessments:

- titles assessment and evaluation of the research project according to art. 4 of the call;

- multiple choice test.

The multiple choice test will assess the level of knowledge of the candidates on the methodology and the main techniques adopted by the contemporary social research.

The test will be based on Piergiorgio Corbetta *Metodologia e tecniche della ricerca sociale*, Bologna, Il Mulino (English edition: *Social Research: Theory, Methods and Techniques*, London, Sage).

After the titles assessment and the research project evaluation, the list of the shortlisted candidates will be posted at:

<http://www.unitn.it/en/ateneo/1963/announcement-of-selection>.

Once test results will be provided, the list of the candidates admitted to the interview will be posted at:

<http://www.unitn.it/en/ateneo/1963/announcement-of-selection>.

The chosen candidates will be listed using their application ID.

Candidates are therefore requested to take careful note of the application ID generated by the system once they have finished their online application.

Shortlisted candidates will be interviewed in English in order to assess their competences, research skills and their motivation.

If no English certificate at least level C1 has been provided in the application, candidate's English knowledge will be tested during the interview.

Applicants must present a valid identification document to be admitted to the interview.

Conditions for the multiple choice test and the off-site interview are ruled in art. 5 of this Call.

The Admission Committee compiles a ranking list according to the results of the interview.

Programme of the interview

The interview will assess the level of knowledge of the candidates on the main theoretical and methodological topics of Sociology; the interview will further check up on the research areas of interests of the candidates as presented in their project as well as their connections to the intellectual and professional profile of the candidates.

Criteria of assessment

The selection outcome is given from the evaluation of the interview. The assessment of the titles has no relevance.
