Art. 5 – APPLICANT EVALUATION

1. Upon hearing the Doctoral Programme Committee the Rector appoints the Admissions Committee. It consists of at least three members chosen among Italian and foreign professors and researchers, who are experts in the scientific areas of the Doctorate. The Committee may also include up to two experts, even foreign, of public and private national and international research organizations.
 2. The selection exams are intended to assess the applicant's preparation and aptitude towards scientific research with specific reference to the chosen research topic.
3. The selection takes place as follows:
 - evaluation of the qualifications presented by the candidate in the application (described above in Art. 4.10) on the basis of criteria established at the beginning of the selection process by the admissions Committee;
 - an oral examination in English intended to assess the basic knowledge, the aptitude of the candidate and the Research Statement submitted.Active and passive English language skills of the candidate will also be verified.
4. Candidates who intend to compete also for a topic-specific grant, indicated in article n.1 of this call, must express their interest in the online application, choosing at most 2 topics and the order of preference.
5. Candidates may also opt for topic-specific grants made available after the deadline of this call. In order to be considered for the additional topic-specific grant/s, the candidates must express their intention to the Committee before the oral exam during the identification process, changing, if needed, the order of preference given in the online application.

Candidates who compete also for a topic-specific grant will be evaluated on the knowledge of the specific subject matter(s) of that grant.
6. The option for a topic-specific grant expressed by a candidate implies the preference of the candidate for the award of that specific scholarship with respect to all others.
7. The Admissions Committee has an overall score of 120 points available, partitioned in the following way:
 - 60 points for the qualifications assessment;
 - 60 points for the oral examination.In order to be admitted to the oral examination candidates must obtain a minimum score of 36/60 from the qualifications assessment.
8. The results of the qualifications assessment will be published at the [selection's webpage](#)¹⁴.
9. In order to take the oral examination candidates must present a valid photo ID.

The oral examination is considered passed with a minimum score of 36/60.

Instructions pertaining to the date, time and location of the oral examination will be published at least 20 days before they take place on the [selection's website](#).
10. Candidates who are unable to attend the interview in person - whether because they live abroad, or because of serious impediments - may request, in the online application, that the Commission perform an "offsite interview" by video-conference. In this case, the applicant will have to declare this when filling out the online application in the "*Offsite Oral Examination*" section, and follow these instructions:
 - **by June 16, 2017** the applicant must fill out the "*Offsite oral examination form*" (available at the competition's webpage), including the contact information of the person in the University/Embassy/Consulate who will identify the candidate just before the oral exam and email it to phd.cimec@unitn.it.The possibility to conduct the oral examination according to the information provided in the form is subject to Admissions committee approval after having verified its technical feasibility. Verification thereof will occur on June 19 or 20, 2017, during which time the candidates will be contacted by the Programme Administrator. To this end, candidates are forewarned to be in contact by email on these two days.

The Admissions committee will ascertain that the necessary conditions are satisfied in order to guarantee that the oral examinations are carried out according to regulations (verification of candidate's identity and fairness of the interviews).

¹⁴ The candidates will be listed using their application ID. Candidates are therefore requested to take careful note of the application ID generated by the system once they have completed their online application.

Art. 6 – RANKING

1. The Committee draws up a merit-based ranking according to the scores obtained by the applicants from the qualifications assessment, the project (anonymous research statement, Part C – Research Project Proposal) and the interview.
2. Scholarships are assigned to eligible candidates based on:
 - a) ranking;
 - b) candidate eligibility for topic-specific grants. Please note that topic-specific grants are assigned following the ranking and until their maximum number is filled. Where possible, according to the preference expressed by the candidate in the application.
3. The candidate who has been awarded a topic-specific grant, must accept it since the choice for a topic-specific grant he/she expressed implies the candidate's preference for the award of that specific scholarship with respect to the others.
Renouncing the topic-specific grant implies the exclusion of the candidate from the right to enroll in the PhD Programme.
4. Unassigned topic-specific grants will result in the reduction of positions available.
5. The ranked list (using candidates' application IDs) will be published on the [selection's website](#).
By publishing the ranking, notification concerning the selection results is considered fulfilled.

Art. 7 – ADMISSION TO THE DOCTORAL PROGRAMME AND ACCEPTANCE OF THE OFFER
