NOTES FOR BANK PAYMENTS.

q WIRE TRANSFERS WITHIN ITALY.

Please provide the following information:

- Complete details of the bank (branch, address, city ..);
- Country code (IT);
- Sort code/bank no. (basic bank code) (10 numeric characters);
- Account number (12 alphanumeric characters);
- National control number (1 letter).
- IBAN code (27 alphanumeric characters);

q WIRE TRANSFERS TO EUROPEAN COUNTRIES THAT SUBSCRIBE TO THE IBAN STANDARD.

In addition to Italy, the European countries that subscribe to the IBAN standard as of 29 April 2004 include: Andorra, Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Great Britain, Greece, Hungary, Iceland, Ireland, Lithuania, Luxemburg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. Banks in these countries require the following information:

- Complete details of the bank (branch, address, city ..);
- Country code (2 characters - shown in the SAP table);
- Bank code (corresponding to the national code of the bank, e.g.: code banque – code guichet, BLZ, sort code, etc);
- Account no.
- National control number (control field mandatory only for FRANCE, SPAIN, AND PORTUGAL)
- IBAN code;
- Swift code (mandatory regardless of the country of destination of the wire transfer - max 11 characters).

q WIRE TRANSFERS TO EUROPEAN COUNTRIES THAT DO NOT SUBSCRIBE TO THE IBAN STANDARD.

- Complete details of the bank (branch, address, city ..);
- Country code (2 characters - shown in the SAP table);
- Account no.
- Swift code (mandatory regardless of the country of destination of the wire transfer - max 11 characters).
- The ABA code is mandatory for transfers to the United States (entered into the bank code field) as it is not always possible to obtain the correct SWIFT. Always ask for this information.

The account number must be entered without spaces, dashes or slashes. The IBAN code is mandatory. The Treasurer cannot make the payment without this number (except for wire transfers to countries not subscribing to the IBAN standard).

The length of the IBAN code varies to a maximum of 34 alphanumeric characters, depending on the foreign country. The first two digits identify the country code, the next two numbers represent the control digit of the accuracy of the IBAN, and the remaining digits correspond to local information, such as the bank and the account number.

Be as complete and accurate as possible in providing information to avoid delays in payment.
