

DELIBERA

Organo	COMITATO PER IL RECLUTAMENTO E LO SVILUPPO DELLE CARRIERE
Data seduta	7 novembre 2017 – riunione telematica
Sede	Via Calepina, 14 - Trento
Oggetto	Valutazione di ricercatore di cui all'art. 24, comma 3, lett. b), L. 240/2010 ai fini della chiamata nel ruolo di professore associato: dott.ssa Marie-Laure Baudet, Centro di Biologia Integrata.

Sono presenti alla deliberazione:

VALENTINA NIDER	Presidente	P
ALBERTO BELLIN	Componente	P
YURI BOZZI	Componente con funzioni di segretario	P
LUCA NOGLER	Componente	P
RAUL PAOLO SERAPIONI	Componente	P

P = presente; AG = assente giustificato; A = assente

Visto lo Statuto dell'Università degli Studi di Trento emanato con D.R. 167 del 23.04.2012;

Vista la legge 30 dicembre 2010 n. 240 "Norme in materia di organizzazione delle Università, di personale accademico e reclutamento, nonché delega al Governo per incentivare la qualità e l'efficienza del sistema universitario" e in particolare l'art. 24, comma 5;

Visto il Regolamento per il Reclutamento e la progressione di carriera di professori e ricercatori, emanato con D.R. n. 563 del 29 ottobre 2013 e in particolare l'art. 32 "Valutazione dei titolari dei contratti di cui all'art. 20, comma 1, lettera b) del presente Regolamento ai fini della chiamata nel ruolo di professore associato";

Visti i "Criteri per la valutazione dei ricercatori a tempo indeterminato con contratto di cui al comma 3, lettera b), dell'art. 24 della Legge 240/2010, ai fini della chiamata nel ruolo di professore associato", approvati dal Comitato per il Reclutamento e lo Sviluppo delle Carriere nella seduta del 21 luglio 2015;

Vista la delibera del Consiglio del Centro di Biologia Integrata del 16 maggio 2017, con la quale si esprime parere favorevole all'inquadramento della dott.ssa **Marie-Laure Baudet** nel ruolo di professore associato per il settore concorsuale 05/B2 (Anatomia comparata e Citologia);

Viste le proprie delibere del 1° settembre 2017 e del 9 ottobre 2017, con le quali sono stati individuati i referee esterni chiamati a valutare la maturità scientifica e didattica della dott.ssa **Marie-Laure Baudet** nel ruolo di professore associato per il settore concorsuale 05/B2 (Anatomia comparata e Citologia);

Viste le valutazioni espresse dai tre referee sul profilo della dott.ssa **Marie-Laure Baudet**, di cui sono riportati di seguito alcuni estratti:

Referee 1:

It is a pleasure and a responsibility to write a letter for Marie-Laure Baudet I wish to make [...] very brief points and I am ready for further questions when needed.

[...] The curriculum and research track of M.-L. Baudet is impressive. Along her carrier she has demonstrated steady production at a very high level both as a first/last author as well as a collaborative investigator. It is an excellent curriculum with excellent results both in terms of publications and granting.

[...] Concerning the last few years I consider that M.-L. Baudet has succesfully completed the transition from a successful postdoc to a group leader with the following excellent points: a) last authorship in an important peer-reviewed journal, Cell Report; b) good record of mentorship, including several students who continue their carrier; c) involvement in out-reaching activities; d) granting efforts with a successful track.

In conclusion, from what I read, I judge M.-L. Baudet very positively and I support her as an Associate Professor in Comparative Anatomy.

Referee 2:

The candidate Marie-Laure Baudet is Ricercatore Tempo Determinato di tipo b RTDb)in physiology since 2014.

Her career started when she got the PhD in Physiology with distinction at the University of Alberta Canada and then her post doctoral position was done at the University of Cambridge, UK (2007-2012. She was enrolled at CIBIO, University of Trento, 2012-2014, before RTDb position.

She, as principal investigation, has attracted many research grants since 2012; some of them are still ongoing. One of these projects, that is one of the still ongoing research, is the Giovanni Armenise-Harvard Career Development Award. The ability of the candidate to rise funding for the research is excellent and of high quality level.

During the period under evaluation (2012-2014) she was the supervisor of many students as

undergraduated students or as PhD students. She also had the supervision of post doctoral fellows. She has several ongoing collaborations also abroad, and some of the students and/or fellows she had as supervisor are abroad to complete their formation.

Beside the teaching expertise shown in the Master degree of the UniTN she was also involved in co-organization of EMBO practical courses.

The many awards received in her still short scientific career and the level of the publications quality put her in an excel scientific position recognized at international level.

Taking in consideration the whole Curriculum Vitae of the candidate I believe that she has reached the scientific maturity needed for being promoted to the position of Associate Professor at the University of Trento. The topic of her investigation are very suitable for Fisiologia better than Anatomia Comparata e Citologia. Indeed she make a fantastic research work on the role of miRNA on the brain wiring. She used innovative research techniques and she got results that will be the basis for future investigations.

Referee 3:

Dr. Baudet works as ricercatore a tempo determinato tipo-B since December 2014 at present at Center of Integrative Biology (CIBIO), University of Trento, Italy. [...] During the last three years as principal investigator she worked on: The axonal roles of miRNAs in the formation of neural circuits during nervous system development; The mechanisms of action of miRNAs in the formation of neural circuits during nervous system development using a gene-wide approach; Trafficking and compartmentalized roles of newly synthesized miRNAs; and Profiling of circular RNAs from axons of retinal ganglion cells and investigation of their roles in axon guidance using *Xenopus laevis* as a mode.

The results of these researches were published on peer-reviewed journals and presented in many meetings.

[...] As a principal investigator in the last three years she obtained a funding (Scientific Independence for young Researchers (SIR) awarded by the Italian Ministry for Education, University and Research (MIUR). This funding is in addition to Giovanni Armenise-Harvard 2012-2017 Career Development Award, Marie Curie Action FP7 Career Integration Grant 2014-2018, and Start-up grant 2012-2015, by CIBIO.

[...] She organized the EMBO practical course on small and long non-coding RNAs, CIBIO, Trento, Italy (11-17 June 2016) and was co-organizer and member of the Scientific Committee for the annual EMBO practical course on small RNAs (2015). [...] In this period she has taught "Molecular Imaging and biophysics" in master's degree in Cellular and Molecular Biotechnology and "Cell biology" to dentist graduate. [...]

During the period, she was the supervisor of 3 Post-doctoral fellows, 3 PhD students, and several under graduate and Masters students. [...] In the last three years, she was Member of the Internal Communication team at CIBIO (Feb2016-present), Member of the PhD graduate school in Biomolecular Sciences (2015-present) and Graduate Student Advisor (2012-present).

All of this indicates that Dr. Baudet is a brilliant, outstanding and enthusiastic researcher with great organizational skills. In conclusion, I can only express an excellent judgment;

Visto il curriculum vitae della dott.ssa **Marie-Laure Baudet**;

Con voto unanime;

Delibera

1. di formulare la seguente valutazione della dott.ssa **Marie-Laure Baudet**, ai fini della chiamata ai sensi dell'art. 24 comma 5, L. 240/2010 nel ruolo di professore associato per il settore concorsuale 05/B2 (Anatomia comparata e Citologia):

*I giudizi espressi dai referee esterni sul contributo scientifico, la qualità dell'attività di ricerca e l'esperienza professionale della dott.ssa **Marie-Laure Baudet**, nonché sulla coerenza del suo profilo con i requisiti attesi per il ruolo di professore di seconda fascia, sono positivi.*

*A seguito di attenta valutazione del curriculum e delle pubblicazioni, e sulla base dei giudizi formulati dai referee, il Comitato ritiene il profilo scientifico della candidata pienamente adeguato al ruolo ed esprime parere favorevole alla chiamata della dott.ssa **Marie-Laure Baudet** nel ruolo di professore associato per il settore concorsuale 05/B2 (Anatomia comparata e Citologia).*
