1. The Admissions Committee is appointed by the Rector after consultation with the PhD Programme Committee. It is composed of at least three members chosen from among the university's permanent professors and researchers, including non-Italians, qualified in the academic fields related to the PhD Programme. The Committee may also include a maximum of two other experts, of any nationality, selected from either public or private research institutes.
 2. The selection consists of:
 - a. an evaluation of the CV, the qualifications and the research project presented;
 - b) an interview for the assessment of the research knowledge and the attitude of the candidate to the research in the fields of the research project presented. The selection may be held in Italian or in English language prior authorization by the Admission Committee. In any case, candidates have to demonstrate a good knowledge of English.

In order to be considered for the additional topic-specific positions, the candidates must express their intention to the Committee before the oral exam during the identification process. In such case, their knowledge on the specific topic of the scholarships will be evaluated during the interview.
 5. The option for a topic-specific grant expressed by a candidate implies the preference of the candidate for the award of that specific scholarship with respect to all others.
 6. The Admissions Committee can assign each candidate a total of 120 points as follows:
 - 60 points for qualifications and research project' assessment;
 - 60 points for the interview.In order to be admitted to the interview candidates must reach a minimum score of 36/60 in the assessment of qualifications and research project.
