

News from the Students' Representation

April, 2022

What we did

Extra pre-graduation exam session

In view of the extraordinary graduation session, which will be held in all the Departments between May and June, we have managed to convince the Department Councils of CIBio, DIPSCo, DICAM, DII, DISI, Physics, Law, Sociology and Mathematics to organize also an extra exam session.

Always remember to check the availability of the professor.

All details can be found on the Department's pages.

Ukraine

Last month we collaborated with the Rasom association to collect basic needs to send to Ukraine. Now our University is also directly involved and until April 7th you will find two collection points in the University, at the Rector's Office and at Povo 1.

You can find more information and the opening hours here: [UniTrento|Ukraine](#).

Student residences

The UniBar at Sanba has reopened, next month will take place the official inauguration: don't miss it!

We continue with the work to modify the Student Residences Regulations (external visits, fines, etc.).

We are working to make the Sanbàpolis theater an active center that can be interesting for all students, by organizing various events (film forums, concerts, shows).

Work in progress

“Movida”

The call for the management of Piazza Dante has closed, and will assign the square to a group of shopkeepers with the aim of making it the center of students' nightlife, a place for socializing and entertainment until late at night, based on the project presented by the Students' Council of the City.

At the same time, we are meeting the city Mayor and the Counselors to prevent the establishment of a red zone in Piazza Santa Maria Maddalena.

To collect more data on how you live the Movida and what you would like from the nightlife, you can fill in this [Questionnaire](#) promoted by the University and the city Council.

We continue the work for the introduction of buses at night.

Scholarships

Thanks to the PNRR funds, the Opera representatives are working with the administration to increase the scholarships' amounts and to raise the maximum ISEE threshold (to apply for the scholarship) to 24,000.

Part-time career

We have proposed the creation of a part-time career, which will allow those who want it to spread their academic career over more years than is normally the case, without any increase in fees.

Student residences

Opera has the intention to renovate the residences in via Borino in Povo (110 beds), and to build both a new student residence in Rovereto in via delle Zigherane (208 beds) and the new Block G in the SanBa residence (110 plabedsces), which will be situated in the open space behind the Sanbàpolis theater, in front of Block F.

These are in addition to the previously announced student residences in via S. Margherita (50 beds) and in Piedicastello (about 200 beds). These new interventions, that add almost 700 new beds, will help to solve the serious problem of lack of student accommodations and high rents.

University Strategic Plan

We are bringing our proposals and observations regarding the Strategic Plans to the Vice Rectors and Rector's Delegates. Although this may seem like a technical and impractical subject, it is in fact fundamental in order to define the interventions and projects that our University wants to achieve in the upcoming years.

Provincial waste plan

We are in contact with the Trento Province to provide feedback on the Provincial Waste Plan, which aims to increase the percentage of differentiated waste, for example by providing more bins in the city center. Have you ever been afraid of getting fined because you differentiated your waste incorrectly? You can use the "100% Riciclo" app, which scans the barcode of your waste and tells you where to throw it away! Finally, this has allowed us to ask again to include organic bins in the University.

***P.S.** As you can see, the representation is active and working for you! If you have any doubts or problems you can contact your Department's representatives or the Students' Council, by email or on social media.*

*The President of the Students' Council
Edoardo Giudici*

The Students' Council

Who we are and what we do

The Students' Council (CdS) is the upper body that **expresses the opinions** and the political will of all the students of the University of Trento, by the means of Motions and Opinions.

Here are discussed topics regarding the community of the University of Trento in general. Deputy **delegates** are nominated and they work together with their commissions on each specific topic.

The Council elects its **President**, who **represents all the students** inside and outside our University, and is a member of both the University Governing Board and the Provincial Coordination Committee. You can find our Regulations and more details about the CdS on the [dedicated section](#).

Current members of the Council

Federico Amalfa - CdS Vicepresident

Fiorella Bredariol - Associations and University life delegate, member of UniCittà

Enrica Brugnara - Member of the FormID
