What we did

Teaching in university

We were asked to give an opinion on the survey that the Quality Assurance Committee developed on the questionnaires on teaching activities. A generally positive picture emerges from the data, which is based on the answers that we students give to the questionnaires.

From the next academic year, data from the post-exam questionnaires may also be available, but a sufficient number must be completed.

We remind you that it is possible to do this from Esse3 > menu > questionnaires > exam questionnaires.

Opera Universitaria: updated call for accommodation and scholarships

August was the month of the first deadlines for the call for accommodation and scholarships. This is a call that this year we have managed to improve from many points of view: we have raised the thresholds for access and extended the deadlines, thus broadening the range of beneficiaries.

Povo 1 is being repaved!

We are happy to announce that maintenance of the Povo 1 terrace is underway. It has been one of the objectives of the Students' Representatives for a long time and we are happy that our voice has been heard.

FBK library available on the UniTrento app

The digital and library services division is working to add more entries to the "study rooms" section on the UniTrento App. The idea is to also be able to make available other study spaces outside the University on the app. Meanwhile, the FBK library in Via S. Croce 77 is already available.

Project "Riuscimmo a riveder le stelle" - Piazza Dante

The Trento Student Council is working on a project aimed at the reappropriation and revitalization of city spaces perceived as isolated and unsafe. The first phase of the project has just ended: with two evenings of music and socializing which, like last year, illuminated Piazza Dante, gradually trying to give it new life. Here is the [link](#) if you are curious to find out more (*sadly it is available only in Italian*)!

Work in progress

The Night Buses are coming

The Municipality of Trento and the Sustainable Mobility Office have told us that the "Night Bus" project is now at an almost completed stage: between the end of September and the beginning of October the service will be activated. We will keep you updated on it!

Opera Universitaria services: we are working to improve them

There is an ongoing discussion at Opera to further improve the tender next year. Many other issues are on the table of the representatives on the Board of Directors: the reopening of the canteen in Via Tommaso Gar, further innovations for the university canteens, and the construction of block G of the Sanba, which is estimated to be ready in 2028.

Free circulation pass, transports apps and better connections...

We discussed with the General Director of the Territory and Transport Department of the PAT on various topics, including the possibility of access to the "Free Movement" season ticket for students with work contracts of up to 25 working hours and the need for a single App that manages the entire transport sector, an issue on which we have been told the organization is already working. We then proposed a single Euregio season ticket and highlighted the need for better connections with Rovereto, San Michele all'Adige and to and from the Veneto (Bassano d.G./Feltre).

Shuttles for CISMED off-site activities

We are working on the possibility of activating a shuttle service that includes a return trip for students involved in the two laboratory activities at the ICLO Teaching and Research Center in Verona which will be held on the weekends of 27-28 November 2023 and 28-29 May 2024.

Our facilities team is active: we are looking for new solutions together with the university

Together with the Estates Directorate we are working to allow the use of some classrooms as refreshment areas, to allow everyone to have a place where to eat a meal during the cold season. The experimentation will start in Povo in the next few weeks and there is the possibility of extending it to other university departments as well.

Monitoring of the conditions of buildings such as Palazzo Prodi is underway, for which solutions are being sought: to avoid water leaks from the roof and to add electrical sockets for the tables on the ground floor.

For Povo and Mesiano we requested an inspection to evaluate a more suitable parking space for scooters and we are trying to increase the racks for bikes and scooters.

Organization of the 2024 Summer Faculty Games

We have established a dialogue with the CUS to improve and expand the organization of the 2024 Summer Faculty Games. With the full support of all the members of the Sports Commission it was

decided to create an Organizing Committee for the event which will take place next summer, to reduce the problems encountered in the last edition, to strengthen and expand the event.

Revision of the UniTrento Statute

We are collaborating with the governing bodies on the modification of the UniTrento Statute, which should be completed within this year. As the Student Council, in particular, we are proposing recognition of the role of the Student Ombudsman, some changes to the composition of the Council and for the incisiveness of student representation in the University's mechanisms and procedures.

Unitrento Students Day - the student associations fair

On Saturday September 30th at the Sanbapolis Student Hall there will be a great event to present the student associations to our community!

Everything will start in the afternoon with numerous activities organized by the associations: workshops, experiments, car races, sports, theater, music and of course aperitif! The day will end with a series of concerts inside the theater (did someone say Souni Universitari?).

Stay tuned, new info coming soon!

***P.S.** As you can see, the representatives is there and is trying to work for you! If you have any doubt or problem you can contact us via email or socials your [Department representatives](#) or the [Students' Council](#).*

We wish you a happy new fall semester!

The Students' Council
