40th Incontro di Grammatica Generativa *Generative Grammar Meeting*

Trento, 13-15 February 2014

Department of Humanities, via Tommaso Gar 14 - Trento, Italy

Italy's oldest regular meeting on generative grammar and formal linguistics.

Special focus this year:

- Multilingualism in a broader perspective: Language development, acquisition of a second language, bilingualism, contact phenomena, theoretical approaches to lesser studied languages and dialects.
- Theoretical, computational and cognitively plausible models of the interface between the lexicon, syntax and semantics.

The conference will be preceded by the workshop ***Specificity in the Grammar: Form and Interpretation*** (February 12th, <http://clic.cimec.unitn.it/specificity>), in the same venue.
