ESPERIENZE LAVORATIVE

- Date (2024 – present)
 - Nome e indirizzo del datore di lavoro
University of Trento
 - Tipo di azienda o settore
Tecnologo - Administrative office “Research Services and Enhancement Directorate”
 - Tipo di impiego
My responsibilities included managing the cascade funding calls issued by the University of Trento. I oversaw the entire project, from its early stages (publication of calls, evaluation of received proposals, and administrative anti-money laundering and anti-mafia checks up to the granting of funds) to the reporting phase with companies, where I had the opportunity to teach and subsequently support the companies in their journey.
 - Principali mansioni e responsabilità
-
- Date (May 2023 – Dec. 2023)
 - Nome e indirizzo del datore di lavoro
University of Trento
 - Tipo di azienda o settore
Tecnologo position at the University of Trento in the Scientific Strategic Programs Division.
 - Tipo di impiego
My efforts contribute to optimizing the efficiency of the team engaged in research support, with the overarching goal of fostering increased success in securing national and international grants for the University.
 - Principali mansioni e responsabilità
-
- Date (Jan 2022 – May 2023)
 - Nome e indirizzo del datore di lavoro
University of Trento
 - Tipo di azienda o settore
PostDoc
 - Tipo di impiego
I worked on human-induced pluripotent Stem Cells (hiPSCs) to understand the role of NEGR1, a protein involved in different diseases, from cancer and diabetes to neuro diseases. I am focused on understanding the role of NEGR1 in Major Depression disease.
 - Principali mansioni e responsabilità
-
- Date (Nov 2020 – Mar 2021)
 - Nome e indirizzo del datore di lavoro
AXXAM S.p.A.
Società Biotechnologica
Scientist to iPSCs unit
 - Tipo di azienda o settore
I was involved in three projects with USA and European clients based on
 - Tipo di impiego
 - Principali mansioni e responsabilità

the maturation of iDopaNeurons for drug testing and toxicology tests, high throughput screening to identify new drugs (library used was LOPAC) and impact on neuro diseases Sensory Neurons.
