### Public transport

The bus stop is located in Via Mesiano (Mesiano Ingegneria stop), a dozen metres or so from the building entrance. The following bus lines reach the Department (leaving from the train station): bus line number 5 and 16. These urban service bus lines are "barrier-free" and all vehicles have a super-lowered platform, with an extractable support to allow for wheelchairs to get on/off easily, as well as reserved places complete with safety belt. For further information and to check up-to-date timetables, please go to the [dedicated page](#).

From the bus stop, you can access the main entrance and, from there, you can reach the various buildings of the Mesiano Centre. The route is also accessible for people with motor disabilities, including wheelchair users.

There is no blister paving.

## **Own transportation means**

UniTrento staff use the reserved ground-floor car parks (entrance on Via Mesiano), up from the main entrance.

Authorised guests can park, reporting to reception, and can then reach the building entrance from there.

## **Accessibility indications**

You can access the main body of the building and the library by walking all the way along the entrance pathway, passing the entire building in a southerly direction. The access ramp is next to the library (signs provided on-site). The 'Laboratori Pesanti' are located at the start of the entrance pathway and are accessible.

Please note: the ramp inside the building is not equipped with a protective side kerb.

The various areas of the building have wide, practicable corridors with even flooring. The lifts have Braille control panels. No information is displayed along the stairs regarding the number of steps or the floor number when you arrive.
