****TiU/TSB offers 4 scholarships equal to the statutory fee to UniTrento students

TiU/TSB tuition fees

Every year the Minister of Education determines the statutory fee for full-time programs in higher education. All students with an EU or EEA nationality who do not yet have a Dutch Master's degree are required to pay these fees, referred to as the statutory fees.

The tuition fees for non-EEA/EU nationals and EEA/EU nationals who already have a Dutch Master's degree are determined by universities themselves. These fees are referred to as the institutional fees. Both the statutory and institutional fees are published on Tilburg University's website.
