GUIDELINES FOR THE INTERVIEW

The interview

The interview will assess the applicant's basic knowledge about the Doctorate scientific areas, the previous research and professional experience, and qualifications declared in the application. The level of knowledge of English will also be assessed.

Recommendations:

- make sure that the webcam on your computer is working: telephone calls without a webcam will not be considered as eligible;
- please, note that you will be also asked to show your ID/Passport before starting the interview (so, be sure you have it with you when starting the interview)
- when you enter the online interview, make sure to identify yourself by naming your account with NAME/SURNAME in order to be recognizable (no nickname please)
- All interviews will be held online unless candidates have specifically asked to participate in presence.
- We will keep candidates in the ZOOM waiting room until it's their turn but as we cannot foresee possible last-minute withdrawals or delays the day of the interviews, we recommend all candidates to connect at least 10-15 minutes before and after the time scheduled for the slot interview.

Reserved Scholarships

All candidates are invited to get informed about reserved scholarships, available in the selection web site <https://www.unitn.it/en/phd/agrifood-and-environmental-sciences>

Before the interview, each applicant will have to confirm his/her interest in one or more reserved scholarships as declared in the application.

Qualification for the reserved scholarship/s will be assessed during the interview.

Notice that applying for reserved scholarships implies the candidate's preference for those specific scholarships over the free-subject ones.
