

Annex 1 to the Agreement on a Double Degree Programme

between the University of Trento, Department of Psychology and Cognitive Science, and the University of Adolfo Ibáñez, Department of Psychology

The current credit system used by the School of Psychology of the UAI, is the is the SCT (Sistema de Créditos Transferibles). In this system, one credit is equivalent to 30 hours in academic activities such as: classes, attendance to mandatory teaching assistant sessions, and finally use time outside the classroom, completing their individual and group assignments, as well as studying the reading material and preparing classes. Based on the number of the hours, 1 SCT is equivalent to 1.2 ECTS. On average students spend 1800 hours, per year, doing both class time and outside work.
